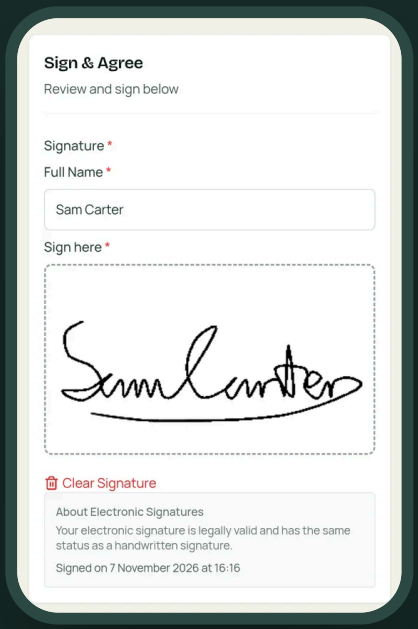
£25
minimum payout, paid monthly



HOW YOU EARN

Paid on every payment for 12 months

You earn 25% of what each business you refer pays us, excluding VAT, for 12 months from its first payment. Recommend once and it keeps paying.

Monthly plans pay you monthly

25% of every monthly payment, twelve times over. Extra waivers on their bill count too.

Yearly plans pay you up front

A business that pays for the year earns you 25% of that payment in one go.

The clock starts when they pay

Free plans, trials and discounts earn nothing. Your 12 months start when a business moves to a paid plan.

What each business earns you

Plan	They pay a month	You earn a month	You earn over 12 months	They pay yearly	You earn up front
Starter	£12	£3	**£36**	£120	**£30**
Pro Most popular	£29	£7.25	**£87**	£290	**£72.50**
Business	£79	£19.75	**£237**	£790	**£197.50**
Enterprise	from £199	£49.75	**£597**	from £1,990	**£497.50**

Paying yearly costs a business ten months' price for twelve, so it earns you a little less, all at once. Figures use full list prices excluding VAT. A business on a discount earns you 25% of what it actually pays. Enterprise is from £199 a month plus usage, and the Off-season plan at £3 a month earns £0.75.

A WORKED EXAMPLE

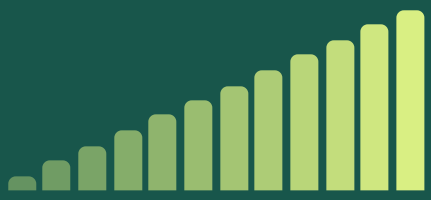
A year with 10 paying businesses

A realistic mix of plans and billing, at full list prices.

4 × Starter paying monthly	**£144**
3 × Pro paying monthly	**£261**
2 × Pro paying yearly	**£145**
1 × Business paying monthly	**£237**
You earn in their first 12 months	**£787**

How that arrives

£145 up front from the yearly payers, then £53.50 every month from the monthly ones.



TRACKING

Credit that sticks

Businesses often take a while to decide. Your link remembers them for 90 days, and once an account is yours it stays yours.

90-day cookie

Any account created within 90 days of clicking your link is credited to you.

Your code beats any link

A business can type your code in the Referral Code box when it signs up, and that wins over any link.

Last click wins

If someone clicks more than one affiliate's link, the last one before sign-up is credited.

Yours for good

A credited account never moves to another affiliate. Only new FieldWaiver accounts count.

PAYOUTS

Paid monthly, straight to your bank

In pounds, by bank transfer to a UK account.

1

They pay

Your commission shows in your dashboard straight away.

2

Held 30 days

Kept back in case of a refund, which cancels or reduces it.

3

Ready to pay

After 30 days it moves to ready to pay.

4

Paid monthly

Once £25 or more is ready. Smaller amounts roll over.

Your dashboard shows it all

Clicks, sign-ups, commission on hold and ready to pay, and every payout, at app.fieldwaiver.com/partner. You sign in with a link we email you. FieldWaiver users already have theirs under Refer a business in the app.

Worth trying while you review

1. Put a phone in airplane mode, take a few waivers, then turn the signal back on and watch them arrive.
2. Sign a family waiver with a parent and two children on one form.
3. Turn an old tablet into a self-service kiosk at the desk.
4. Send us your own paper or PDF waiver and we'll set it up as a form for you, free.

WHAT TO SAY

Why businesses say yes

Lead with these. They are what FieldWaiver does that matters most to activity businesses, venues and clubs.

Works with no signal

Staff phones, tablets and the kiosk keep taking waivers offline and send them once the connection is back.

Whole families on one form

A parent signs for everyone in one go, and it counts as one waiver.

Signers never turned away

On paid plans a busy month never stops the queue. Extra waivers cost a few pence each, not a bigger plan.

A UK company, prices in pounds

No currency surprises on the bill, and help from a UK team on every plan.

Data kept in the UK and EU

An easy answer when a customer asks where their details go.

Free plan and real apps

25 waivers a month free with no card, with apps on the App Store and Google Play.

Long blurb

For a review, a roundup or a client recommendation

If you run an activity business, a venue or a club, FieldWaiver takes the paper out of waivers and consent forms. Customers can sign on their own phone before they arrive, or at your desk on a tablet or a self-service kiosk. Your team's phones and tablets keep taking waivers with no signal and send them once the connection is back, so a field, a basement or a packed hall is no problem. A parent can sign for the whole family on one form, and it counts as one waiver. On paid plans nobody is turned away in a busy month, because extra waivers cost a few pence each instead of forcing a bigger plan. FieldWaiver is a UK company with prices in pounds, your customers' details stay in the UK and EU, and there are apps on the App Store and Google Play. You can start on the Free plan with no card.
